COMMUNICATION

Date: 15 March 2026

Team ID: unm293200909

Project Name: FitBuddy – AI Fitness Plan Generator using Gemini Models

Maximum Marks: 1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This communication plan outlines how Kavyasri.A manages project updates, issues, testing, and final demonstration activities for the FitBuddy application.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp / Discussion	Kavyasri.A	Track development progress and daily tasks
2	Progress Update	Weekly	WhatsApp / Document	Kavyasri.A	Review milestone completion
3	Issue / Bug Discussion	As Needed	WhatsApp / VS Code	Kavyasri.A	Identify and resolve coding or integration issues
4	Stakeholder Review	Bi-Weekly	Project Review	Kavyasri.A	Review project features and collect feedback
5	Final Demo Rehearsal	Once	Local Web App / Browser	Kavyasri.A	Verify the complete FitBuddy demonstration flow

Work Assignment – Kavyasri.A

Order	Assigned Work	FitBuddy Project Area
1	Research and select the appropriate Gemini model	Model selection & AI architecture
2	Define application architecture and set up the development environment	FastAPI, Gemini, SQLite, SQLAlchemy, Jinja2
3	Develop core workout, nutrition/recovery, feedback-update, and database functions	Core functionality development
4	Implement FastAPI routing and main application logic in routes.py	Backend and API routes
5	Design HTML/CSS interface and create dynamic Jinja2 templates	Frontend development
6	Prepare local deployment, test the application, and verify the demo	Deployment and testing

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Gemini API or model integration issues	Check API configuration, test requests, and verify model responses.
2	Backend and frontend integration issues	Test FastAPI routes and Jinja2 templates step by step.
3	Local deployment or runtime errors	Verify dependencies, environment variables, Uvicorn configuration, and test the application
