# Project Initialization and Planning Phase

Date: 06 October 2026

| | |
|---|---|
| **Team ID** | unm293200909 |
| **Project Name** | FitBuddy-AI fitness plan generator using Gemini models |
| **Name** | Kavyasri.A |
| **Maximum Marks** | 3 Marks |

## Define Problem Statements (Customer Problem Statement Template)

The problem statement is prepared using the customer point-of-view structure in the provided template. The content is based on the FitBuddy project description and its stated user scenarios.

| **Problem Statement (PS)** | **FitBuddy Customer Problem Statement** |
|---|---|
| **I am (Customer)** | A user who wants a personalized and structured fitness routine to achieve a fitness goal. |
| **I'm trying to** | Get a customized 7-day workout plan based on my age, weight, fitness goal and preferred workout intensity. |
| **But** | Creating a suitable day-by-day workout routine and finding useful nutrition or recovery guidance can be difficult. |
| **Because** | Different goals and intensity preferences require different routines, and the plan may need to change according to user feedback. |
| **Which makes me feel** | Uncertain about choosing an appropriate routine and less confident about maintaining a consistent fitness plan. |

## Work Assigned to Kavyasri.A

| **S.No** | **Project Work** |
|---|---|
| 1 | Define the customer problem and identify the user's need for a personalized fitness plan. |
| 2 | Document user inputs such as name, age, weight, fitness goal and workout intensity. |
| 3 | Document the requirement for generating a personalized 7-day workout plan using Gemini. |
| 4 | Document nutrition/recovery tips and the feedback-based plan update feature. |
| 5 | Prepare and maintain the problem-statement and project-planning documentation. |

The FitBuddy project document states that the application generates personalized 7-day plans, provides nutrition/recovery tips, supports feedback-based plan updates, and stores user and plan data.
