PROJECT DEMO PLANNING

Team ID: unm293200909

Project Name: FitBuddy – AI Fitness Plan Generator using Gemini Models

Team Member: Kavyasri.A

Project Demo Planning

A well-structured demo plan ensures that the FitBuddy project is presented clearly and covers its major features. The responsibility below is assigned to the given team member in the order provided.

S.No	Demo Section	Description	Duration	Responsible Member
1	Introduction & Problem Statement	Introduce FitBuddy and explain the need for personalized AI-based fitness planning.	2 mins	Kavyasri.A
2	Solution Overview	Explain the proposed solution, Gemini AI integration, FastAPI backend, and overall workflow.	2 mins	Kavyasri.A
3	User Input & Plan Generation	Demonstrate entering name, age, weight, fitness goal, and workout intensity and generating a personalized 7-day	3 mins	Kavyasri.A
4	Nutrition / Recovery Tip	Show the goal-based nutrition or recovery tip generated using Gemini.	2 mins	Kavyasri.A
5	Feedback & Plan Update	Demonstrate submitting feedback and updating the original workout plan using Gemini.	3 mins	Kavyasri.A
6	Admin View & Q&A	Show stored users/plans in the admin view and answer questions about the project.	3 mins	Kavyasri.A

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the fitness-planning problem and project objective.
2	Solution Overview	Explain FitBuddy architecture and Gemini-powered features.
3	Live Feature Demonstration	Generate a plan, display nutrition tip, and update the plan using feedback.
4	Q&A Session	Answer questions about implementation, technologies, database, and Gemini integrati

Technology Areas Covered

FastAPI • Google Gemini AI • Python • HTML/CSS • Jinja2 • SQLite • SQLAlchemy • Uvicorn • Git

Assignment Basis

The assignment follows the FitBuddy project workflow: model selection and architecture, core functionality development, routes.py development, frontend development, deployment, and testing. The source project specifically identifies Gemini for workout-plan generation, nutrition tips, and feedback-based plan updates.
